WORLD-CLASS DRAMA, SEEN THROUGH NORDIC EYES. THIS IS N12.

Six years ago, the Nordic public media companies formed what is now known as Nordic 12. Following the device “stronger together”, the partners set out to grant their audiences the best possible drama offering by committing to twelve joint drama productions each year.

Fast forward to today, and the answer is clear: The collaboration has so far resulted in around 70 drama series, for the Nordic audiences to enjoy in broadcast and on demand, whenever they plase .

These productions are uniquely Nordic with world-class production value. No wonder the world is talking about Nordic drama.

Read more about the Nordic drama collaboration, on **Nordvision.org.**

The Nordic partners also co-produce drama for the young adult audience, while the collaboration on children’s content results in about 15 drama series each year.

Now, let the drama begin.

"Behind Every Man" revolves around the experienced and successful head chef, Michael, who suddenly must defend his position with the arrival of a new sous-chef, Naja.

She serves up new initiatives aiming to modernize the work environment, the hierarchical structure, and the state of gender equality in the restaurant. Yet, she might also be aiming for the position as head chef.

Michael and Naja get entangled in a struggle for rank, titles, and power. During their struggle old and dark secrets see the light of day, challenging the future of the restaurant.

Who is willing to go the extra mile for power? And is it women or men who have the upper hand in the pressure cooker of the workplace in 2023?

Prisoner depicts the life and work of four prison officers - Sammi, Henrik, Miriam, and Gert. Their personal problems and secrets are reflected and amplified by the dynamics of their common workplace – the prison.

The story kicks off when they are forced to do a thorough investigation in the prison to save their jobs. The prison will ultimately close unless they manage to correct the bad press, hierarchy and drug trade dominating the workplace.

The investigation turns into a battle for survival - not only for the prison but for everyone inside and outside the walls.

Crafty persons in the world of finance make pension funds finance wind power plants without investing anything themselves.

It makes them super rich, while their governments applaud them. At the same time their companies pay zero tax. Tons of dirty money are exchanged into crypto currency and taken to banks abroad.

Wealth managers are hired to make the money and the companies untraceable. Our characters in season 3 are right in the middle of all this.

How far can they go? How many moral transgressions can they commit before life hits them hard in the back of their heads? Is there such a thing as karma? Or can you buy your way out of everything if you have enough money?

The answer to all this is very simple to our characters: Who cares?

Power Play is the incredible story of a young doctor and mother of four, who overpowered the hard-core politicians and ended up becoming the first female Norwegian Prime Minister in 1981.

Gro Harlem Brundtland works in the early 70's as a young doctor, fighting for self-determined abortion, when she, almost by accident, stumbles into politics. The Labor Party, which has been in government in Norway since WW2, is desperately looking for someone who can take them out of the great crisis that threatens the party.

Gro is soon thrown headlong into the power struggle that is about to tear the party to pieces.

One by one her male colleagues are driven out of the party in a rodeo of scandals and power play, until Gro is the last woman standing.

As the city of Malmo comes to terms with the Covid-19 pandemic, thirty-nine illegal workers burn to death inside an industrial warehouse.

The tragedy shakes the whole of Sweden and no more so than the Malmo Police Department, whose authority is increasingly scrutinized. The people of the city start to question whether the solution to their problems is through the work of the police, or if the men and women in blue are still fit for purpose.

Against this backdrop of rising tension and mistrust between the police and the public, our officers must battle increasingly dramatic professional and personal matters.

Magnus tries to locate his good side, while Sara attempts to find a way back to her own, especially through a new relationship with Khalid.

Meanwhile, Faye starts to seriously question her job in the police force, and Dani is duped by new manager Katrin, Leah must handle the arrival in Malmo of her parents and Jesse, against all better judgment, starts an inappropriate relationship with trainee officer Fanny.

Three young guys create the world's largest file-sharing site - The Pirate Bay - but for completely different reasons. PETER, aka brokep, does it for ideological reasons.

FREDRIK, aka TiAMO, for the love of technology. GOTTFRID, aka anakata, wants to stick it to the establishment. They are united in the desire to make information available for free on the Internet, everywhere.: "Information wants to be free!".

The Pirate Bay is not just a site, it's a people's movement with sympathizers all over the world. But also, enemies. In Sweden, HENRIK at the Swedish anti-piracy agency is doing everything in his power to stop the pirates, otherwise the entire internet is running the risk of becoming a lawless territory. While Henrik struggles within an old structure where the legal society is not capable of managing the evolution of technology, the pirates quickly gain ground and gain the upper hand.

The Pirate Bay is becoming the world's largest site and a pioneer in online distribution of digital material thanks to torrent technology. It's not long before the pirates' fuck off attitude angers the real enemy: Hollywood.

State of Happiness tells the story of a nation through the eyes of the people. It's the story about ourselves and how we became who we are.

About the choices that were made, and how those choices have shaped the world we live in. Never told from a top-down perspective, but among people like you and me, it conveys a captivating chronicle of everyday life evolving. Sometimes in small steps, sometimes in leaps.

Season 3 addresses consolidation, but also transitions. Reaching further – or losing the grip. Automation. Technological invention, paving the ground for making a lot of money, despite the ongoing global recession – or for becoming redundant; losing your job. And it deals with being confronted with choices made. With consequences enforcing tough dilemmas.

As in the previous seasons, this contrapuntal approach will be at the heart of every story, making State of Happiness a tale that is both recognizable and evocative.

Benedikt Ríkardsson returns to politics after taking leave from the post of Prime Minister due to bipolar disorder.

With this experience of mental disease, he finds many aspects about the system of governance unsound. Changing them, however, proves difficult as the mentally ill person will always be branded with the disease he's battling. To fight for his beliefs, he will have to endanger his marriage and mental health.

Most people diagnosed with bipolar end up quitting their medicine. Benedikt doesn't. But as tensions rise, Benedikt's initiative to improve the mental healthcare system is blocked. Benedikt goes into a filibuster against his own cabinet's finance bill and the entire nation concludes that he's relapsing.

A series which explores prejudice against mentally ill people
and their alienation in society, while also tracing the delusional corruption residing in our political system.

The Minister 2 poses a simple question: Who is the crazy one?

World-famous playwright Lars Norén and his producer Isa Stenberg are invited to collaborate at a maximum-security prison on a brand-new play.

Working closely with three dangerous prisoners – and Neo-Nazis convicted of violent crimes – Norén and Isa realize that they have a sensation on their hands. A heated public debate about freedom of speech, along with naivety and irresponsibility by state authorities, allow the prisoners take advantage of their freedom.

One by one, prison security mechanisms fail and the convicts secretly begin to rob banks to support the expansion of a new neo-Nazi organization. Their actions lead to a tragic double police murder, igniting a scandal that traumatizes a nation.

Pressure Point portrays how the roots of goodwill, naivety, and groupthink thickened into an unpredictable tragedy.

A handful of good intentions mixed with group pressure and the idolization of genius, led to a catastrophe so scandalous that, twenty years later, no one will yet claim responsibility for it.

The hit series Thin Blue Line, both beloved by viewers and praised by critics, is returning for a new season in 2024.

When viewers reunite with Magnus, Sara, Jesse, and the other dedicated police officers of Malmö, the battle against narcotics takes center stage. In their work, they encounter addicts, party drug users, drug dealers, and the deeply criminal figures who wield influence but often remain hidden, especially when it comes to drugs.

But the work of our police officers continues to surround both serious crimes and minor transgressions. It involves petty crimes and responding to people in emotional crises. It's about drunk driving incidents, lost dogs, overloaded electric scooters, elderly dementia patients, football hooligans, and people who have lost their way.

Meanwhile, the main characters of Thin Blue Line continue their struggle to balance professional insights with personal relationships.

And the fundamental question of the series in its third season is as relevant as ever: How do you remain a whole person in a world that looks the way it does?

Generations is a family drama that follows its characters through a crime plot. The show opens with the discovery of a 69-year-old baby corpse, which turns up in the space under the eaves in a Frederiksberg flat during a renovation.

In the same building lives 87-year-old Martha, who quickly claims responsibility, confessing to the killing.

Thus begins the story of a family that has carried and passed on its trauma without knowing it, and without really comprehending what it has done to them.

Through Martha's family, we follow her case, and we see what happens to them when the skeletons come out of the closet and shed light on the past, spilling into the present.

Generations is a story of redemption and transformation. About letting go of guilt and breaking free from shame.

It is the summer of 2000, and best friends Nader and Benjamin are full of excitement and anticipation. Life in the multicultural neighborhoods of Holmlia, Oslo, is spent flirting with girls, going to the beach, and playing soccer.

But half a year later, on the night of January 26th, 2001, their lives are shattered by tragedy.

Without warning, the two are viciously attacked by a group of neo-Nazis outside Benjamins family home. While Nader manages to flee, Benjamin, still in his pajamas, loses his footing and falls to the ground.

At only fifteen years old, Benjamin is brutally murdered simply because of the color of his skin. The series follows Nader, his friends and their families before and after the devastating murder.

With warmth, realism, and humor, this true and inspiring story reveals how tragedy can ultimately bring a fractured community closer together.

Despite having lost Benjamin forever, they found a newfound unity, a strong bond they would know simply as “Holmlia Love”.

Vigdís is a four-part drama series based on the inspiring true story of the first woman in the world to be democratically elected as head of state.

Vigdís was elected in 1980 in a historic election against three male candidates in Iceland and went on to serve as president for sixteen years. The series tells Vigdís' story from when she was a teenager in the late 1940s until the monumental day, she is elected in 1980.

Her earlier years are characterised by disappointment and loss. She lost her brother at a young age and her university years abroad were misadventures where loneliness and failure replaced the joy she had anticipated. Her marriage failed and she experienced near insurmountable difficulties in trying to become a mother.

The dramatic events in Vigdís' life shape her character as she never gives up. Despite endless obstacles, mainly because of her sex, she never stops dreaming of a brighter future.

Vigdís is a significant story of our time, dramatic, powerful and full of integrity and hope that will speak to audiences of all ages. For authenticity, the script and production of the series are undertaken in collaboration with former President Vigdís Finnbogadóttir.

This is the story of Swedish media mogul Jan Stenbeck. A man with a unique combination of genius and madness, underdog personality and arrogant upper-class mentality. He was born into one of Sweden's most powerful business families of the 20th Century who had made a fortune on the domestic steel and wood industry.

When both Jan's father and older brother dies within a couple of months, he is suddenly named the new leader of the family company. Jan choses to do his duty but his visions for the company are groundbreaking and controversial.

His sisters are afraid their brother is tarnishing the family heritage and do everything in their power to stop his project, which leads to a tearing conflict between the siblings. But Jan is decided to fulfill his dreams at any cost, to bring Sweden into a new technological era - a world leader in modern communication. But his victory comes with a great private cost. He loses everything he loves.
